

ResMed AirFit N30 - Cradle Cushion Mask

The new ResMed AirFit N30 is the CPAP mask that discreetly fits into your lifestyle to help you stay on therapy.

ResMed's lightest mask is small and discreet; it features a soft, curved nasal cradle cushion and an adjustable QuickFit™ elastic slip-on headgear, it is simplicity from the start.

This mask comes with the three cushion sizes in the pack: small, medium, and small wide.

AirFit N30 Features:

- Quickfit elastic headgear with a split strap designed to make the AirFit N30 easy to fit. It provides stability & adjustability with minimal facial contact.
- Curved cushion design – cradles the nose for added comfort and stability that is less intrusive.
- Quietair Vent Technology - This is designed to break up exhaled air, so it's spread out lightly, minimising
