

ResMed AirFit P30i

The ResMed AirFit P30i mask gives you the freedom to be you! With no front-end tube, this minimalist design stays out of your sight and out of your way so you can get cosy next to your loved one. The top-of-the-head tube design that gives you the freedom to sleep in many positions. Also featuring ResMed's QuietAir technology, the mask gently diffuses exhaled air to minimise noise and disruption.

The SpringFit frame is interchangeable and adapts for a stable, personalised fit.

- Quick-release elbow allows you to easily disconnect the mask from tubing with 360° rotation for greater freedom of movement.
- SpringFit frame adjusts to different facial profiles, helping provide an accurate fit the first time.
- Top-of-head design gives you the freedom to sleep in many positions
- Integrated soft sleeves complement the streamlined mask profile to create a softer, more comfortable experience.
- Pillows cushion is designed to be interchangeable with ResMed's AirFit N30i nasal cradle cushion, offering you even more options to choose.
- QuietAir vent gently diffuses exhaled air, designed to minimise noise and disturbance.
